

Service Brief

HexaBuild Service Credits

HexaBuild

The most flexible way to purchase HexaBuild Education and Consulting Services

HexaBuild Service Credits allow clients to buy credits on their schedule to fit the needs of their budget process. Credits can be purchased directly or through one of the many resellers that offer HexaBuild services.

- Credits may be redeemed for HexaBuild education courses and HexaBuild consulting services
- For packaged education and consulting offerings, credits will be redeemed based on the current list of HexaBuild SKUs
- For custom consulting engagements credits are applied according to the current value of HexaBuild Service Credits
- For custom consulting engagements, a Statement of Work (SOW) is not required at the time of purchase; however, a signed SOW is required prior to the engagement kickoff
- Credits expire two years from the date of purchase

Benefits

Flexibility

Leverage budget cycles and apply credits as needed towards education and consulting services

Use with Existing Agreements

Can be easily added to existing reseller channel agreements or purchased directly from HexaBuild

Efficiency

Simplified ordering and administration with a single SKU

Price Protection

If the price of HexaBuild Service Credits increases, the new value of existing valid service credits will be honored

Why HexaBuild for your IPv6 Education and Consulting?
